Number 1

The Simple Economics of Pollution Prevention 1
Gloria E. Helfand

Reducing Toxic Risk Through Voluntary Action EPA's 33/50 Program: A Progress Report 13

Guides to Pollution Prevention: The Pesticide Formulating Industry 21

Book Reviews 97

Numbers 2–4

SPECIAL ISSUE:
Tolerable Daily Intake of PCDDs and PCDFs

Guest Editors
Ulf G. Ahlborg
Renate D. Kimbrough
Erkki J. Yrjänheikki

Executive Summary 101

Assessment of Human Intake of PCDDs and PCDFs From Different Environmental Sources 133
Peter Fürst, Hans Beck, and Rob Theelen

Human Data Derived From the Seveso Accident—Relevance for Human Risk Assessment 151
Paolo Mocarelli, Alessandro Marocchi, Paolo Brambilla, Piermario Gerthoux, Claudio Beretta, Laura Colombo, Maria Bertona, Cecilia Sarto, Pierluigi Tramacere, Antonio Mondonico, Carla Crespi, Stefano Signorini, Rinaldo Brivio, Vittorio Carreri, and Luigi Meazza

Approach to Risk Assessment of PCDDs and PCDFs in Yusho Food Poisoning 175
Yoshito Masuda

Review of Research on Health Effects of PCDDs and PCDFs to Develop Human Risk Assessment 181
Vernon N. Houk

Risk Assessment of PCDDs and PCDFs in the Nordic Countries 191
Ulf G. Ahlborg

Toxicokinetics of PCDDs and PCDFs of Importance to the Development of Human Risk Assessment 197
Ulf G. Ahlborg and Annika Hanberg

Practical Measures for Risk Management to Prevent PCDD and PCDF Emissions from Known Sources 213
J. Vikelsøe

Infant Exposure to PCDDs and PCDFs Through Breast Milk and An Approach to Calculate Body Burden 227
Ferdinand Haschke, Christoph Male, Beate Pietschnig, and Erkki J. Yrjänheikki

Evaluation of Toxicity of TCDD in Animals as a Basis for Human Risk Assessment 237
Diether Neubert

Review of Properties and Environmental Emission Sources of PCDDs and PCDFs 277
Erkki J. Yrjänheikki

Review of Models for TEFs in Assessing Health Risks of PCDDs and PCDFs 283
Erkki J. Yrjänheikki

United Kingdom Approach to Risk Assessment of PCDDs and PCDFs 289
Frances D. Pollitt

Tolerable Daily Intake of 2,3,7,8-Tetrachlorodibenzo-*p*-Dioxin: Recent Data on Mechanism and Animal Carcinogenicity 295
Renate D. Kimbrough

Environmental Levels and Fate 307
H. Fiedler, O. Hutzinger, and H. Hagenmaier
